General Requirements

We recommend that this installation be done in a masonry structure and carried out by a professional tradesperson. Other non-combustible material such as Hardiplank, Villaboard with metal studs may also be used.

This appliance must not be installed under or on any combustible material. Minimum clearance from combustible construction materials to all sides of the appliance is 450mm (18").

Warning: Contact your local municipality for any building codes regulating the installation of outdoor barbecue appliances. Outdoor installations must conform to local codes or, in the absence of local codes, with:

- USA: National Fuel Gas Code, ANSI Z223.1/NFPA 54
- CAN: B149.1 Natural Gas & Propane Installation Code.
- AUST: Australian Standards Code AS:5601

as well as the requirements of any local council, gas, electricity authority or other statutory regulation.
