RÖSLE NOVELTIES FOR 2020/2021

EXPERIENCE ALL THE
NEW PRODUCTS IN DETAIL

*VARIO holder for
grill inserts.*

*Folding
side tables.*

Innovative, flexible and versatile: our new products.

It's the time to kick off the new barbecue season, and we are already very excited about our new products. There are so many variations that you could almost barbecue all year round. Maybe we should? With all those possibilities the maxim has to be "Get barbecuing and try something new"!

The new "Plancha" equipment offers plenty of room for new barbecuing experiences. Caribbean fish pan or spicy tapas will definitely give you the taste for travelling right away! You can conjure something up on the proven classics of the VIDERO range or on the smallest members of this family: VIDERO G2 and VIDERO G2-S. This means that nothing will get in

the way of a barbecue party on a smaller balcony, with the side tables simply being folded down when needs be. Otherwise, the motto is "Windshot", "Safety first" and "My head is spinning" – as small additions may sometimes even improve quality products!

NEW

RÖSLE NOVELTIES: GAS GRILL BBQ STATIONS AND COVERS

Our VIDERO family has grown: the **VIDERO G2 models** mean we can now offer the perfect barbecue for those who just have a small balcony or terrace. The side tables can be easily folded down or be used for storage when needed.
