MONOLITH

FIRE POT

The cast iron pot is another accessory that turns the Monolith Grill into the perfect outdoor kitchen. The pot has the same half-moon shape of the Smart Grid System and can be hooked neatly into the SGS. The lid can also be used separately as a turning plate with different surfaces. An included internal stainless steel grate creates a second level to increase the capabilities beyond other traditional dutch ovens. The FIRE POT is heavy duty at 4 mm thick black enamel and is available in different sizes for the Monolith Classic (6.5 l) and LECHEF (9.5 l).

ROTISSERIE ICON & JUNIOR

The Monolith stainless steel rotisserie is now also available for the Monolith ICON & Junior too. The proven wedge shape allows full use with the lid closed for ultimate control. The rotisserie comes with a set of 3 robust stainless steel skewers, which are rotated simultaneously by the battery-operated motor (altern. motor 220 V). An additionally available set of attachable skewer clamps allows larger grilled food to be fixed to the skewers.

TROLLEY ICON & JUNIOR

The ICON & Junior get their own buggy! A black powder-coated frame with side tables made of acacia wood give the little stars of the Monolith Grill family a stylish mobile base. On the back there is a convenient holder for the matching fire plate so it is always on board and has its own dedicated storage place. On the lower storage level there is enough space for further accessories.

WORK AND
PREP SPACE!**

ADD-ON TABLE FOR BUGGY

The buggy for the Monolith Classic & LECHEF with its foldable side table gets an optional add on part.* For more grilling pleasure and possibility, there is an even larger table which can be simply attached to the buggy in combination with a mounting plate. This extends your work surface by a huge additional 126 x 80 cm. Like the buggy, the table has a stainless steel frame and a teak surface. Especially useful in the catering trade, but also beautiful and helpful in the garden at home. As well as a workspace it can be the ideal place for a smaller Monolith ICON to give even more grill space and cooking possibilities. When the table is not in use it can be easily stored to save space as it neatly folds down.

*Suitable for Classic and LeChef buggy models from May 2021.
